

V1 Industrial Group

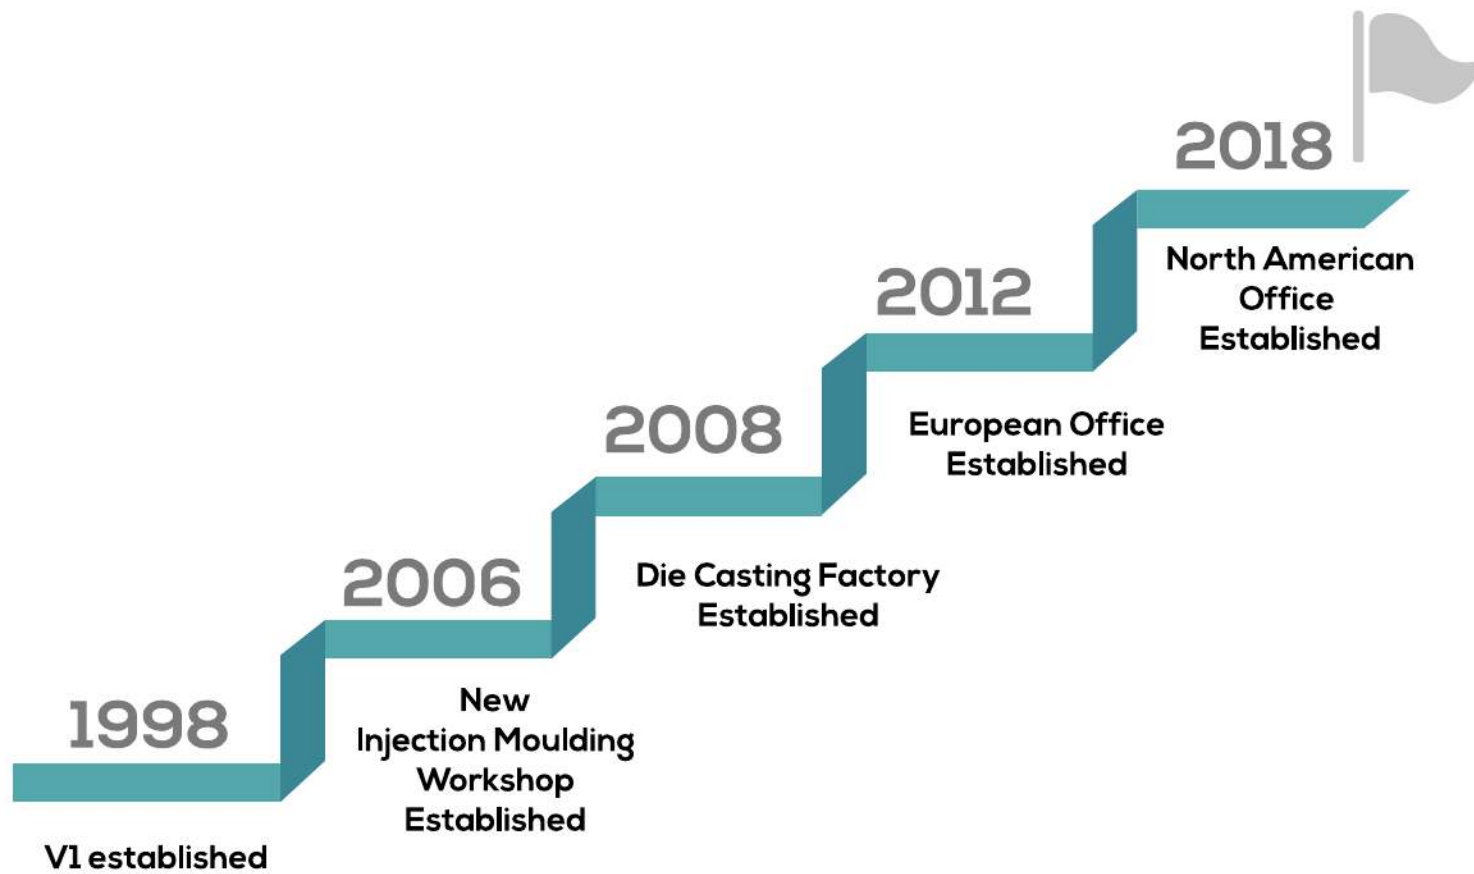

About us

The V1 Industrial Group offers customizable solutions for projects making use of the latest industry technologies.

We're capable of operating on a global scale to provide support to our customers technically and commercially ensuring a smooth, efficient and effective production is achieved.

Development History

Mission

Our mission is to optimize the growth of our clients providing solutions that integrate sophisticated automation technologies and added value techniques.

Vision

Our vision is to be recognized internationally as a premium toolmaker renown for its advanced engineering and excellent customer support experience.

Quality Policy

V1 develops custom solutions to meet the specific requirements of our customers and other relevant stakeholders; we achieve this through the implementation of the latest technological innovations.

Certifications

- IATF - Design and manufacture of plastic injection molds
 - ISO 9001:2015 - Quality Management System
 - ISO 14001:2015 - Environmentally Responsible

WHAT we can do?

- Plastic injection molds up to 30 tons
- Injection tooling with In-mold Decoration and clean room production technology
- Casting molds up to 10 tons
- Zinc aluminium diecasting and CNC machining
- Metal stamping with high speed progression tools to 800 tons
- Metal and plastic combinations
- Measuring fixtures
- Leather covering
- Deep drawing, machining in copper Steel combinations, leader in refrigeration component technology

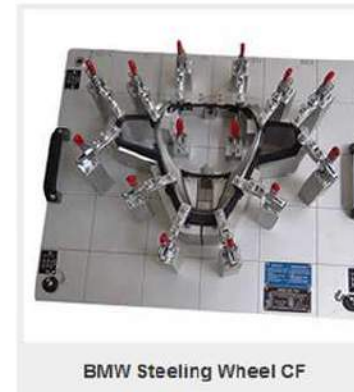

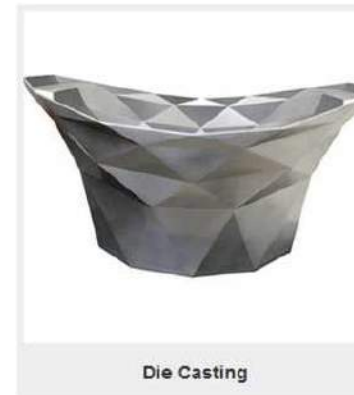

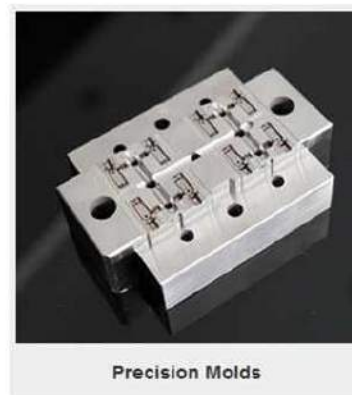

Core Business

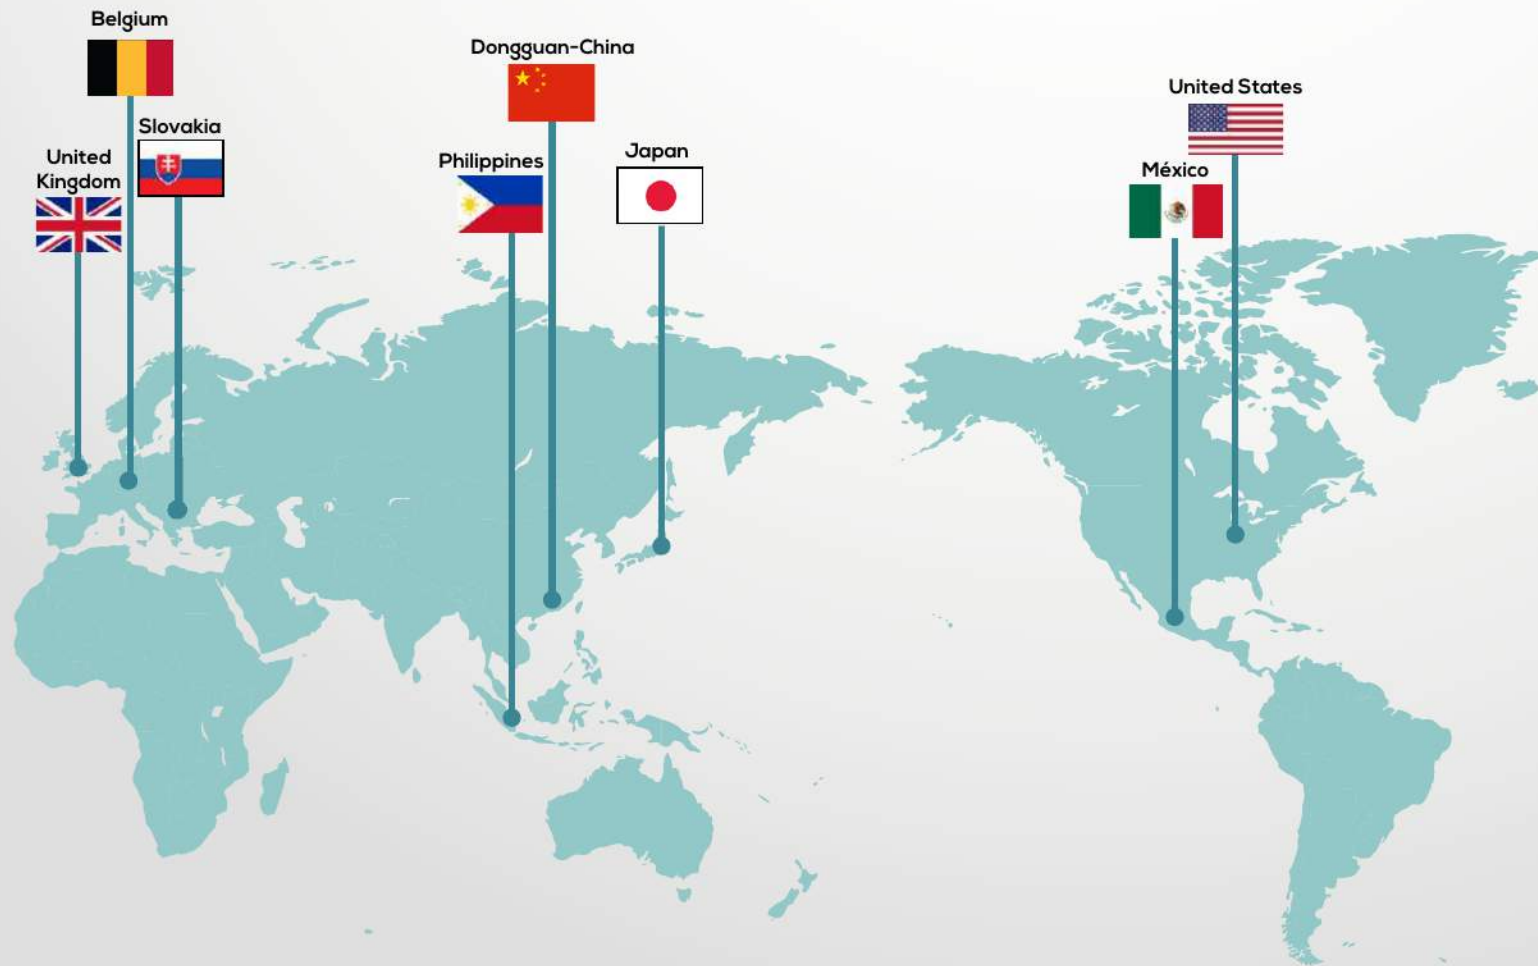

Core business: Manufacture of industrial tooling specializing in the following areas: injection molds, precision molds, die casting, metal stamping and checking fixtures.

Moving forward, we're interested in taking on serial production projects focusing on optical lenses and In Mold Design & Labeling using added value technology in North America.

Products

WHERE we can support?

Local support and expertise

- Quick Response
- Full After-sales Service
- Professional Technical Support
- Working with partners across Mexico and USA
- On-site support for modifications
- Warranty and quality control issues
- Plastic molding problems

Alabama

V1 Industrial Group: V1 Mold Technology Co., Ltd.

China - Dongguan

V1 Mold Technology Co., Ltd. is in ChangAn, Dongguan. The factory covers an area over 7,000m². It includes mold manufacturing department/ production department. We keep increasing product quality and shortening delivery time to achieve customer satisfaction.

In the company, there are 12 sets of 2/8 EDM machines, and 11 high-speed processing machines that can produce 3,500 tons plastic molds that can run 24Hrs to achieve the request of short-term and high-quality.

V1 has factories in both Dongguan and Wuhan China, overseas manufacturing plants in Europe, Mexico, and the Philippines. Also, offices have been set up in more than 8 countries to provide quick respond service to customers.

In the future, V1 will not only improve the quality and technology, but also provide good communication and service to our customers and ensure their requirements.

V1 is aiming at becoming a partner that can provide high quality products to our customers.

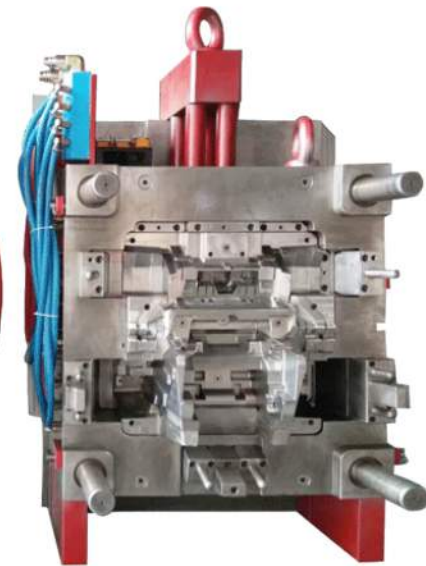

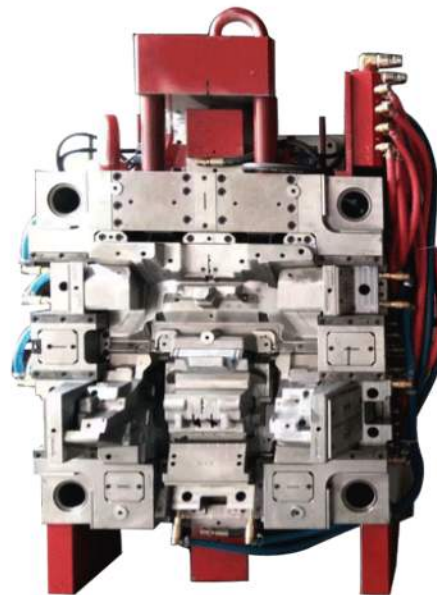

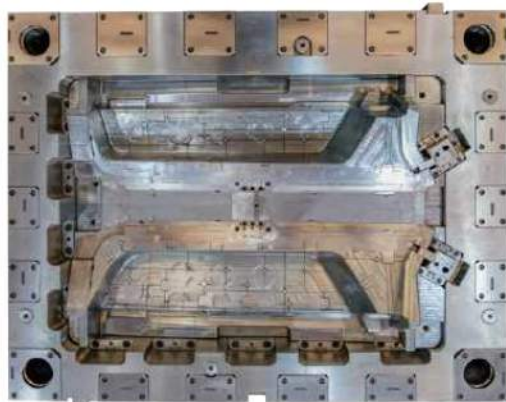

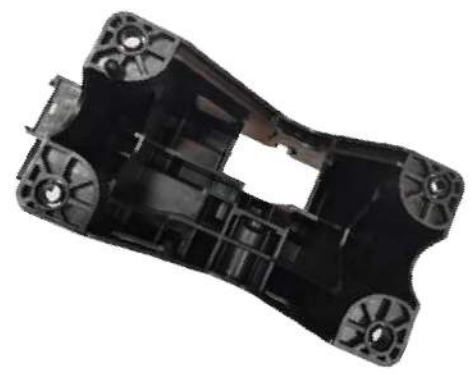

V1 Mold Technology Co., Ltd.

V1 has 3 mold making facilities 2 making smaller precision molds and 1 the larger molds up to 30 Tons

V1 Industrial Group: Precision Molds Co. Ltd.

Dongguan, China

We use high-precision processing equipment and high-processing technology to produce high-precision, high-quality, high-efficiency products.

We aim to produce products that contribute to the production of our customers with the highest level of precision machining, design and assembly technology.

YACHANG Precision Molds Co. Ltd.

V1 Industrial Group: Guangxiang Auto Parts Co., Ltd.

Dongguan, China

Guangxiang Auto Parts Co., Ltd. was established in 2012. The factory covers an area of about 1500m². In the field of automotive plastic parts, we have produced high-quality inspection tools and fixtures.

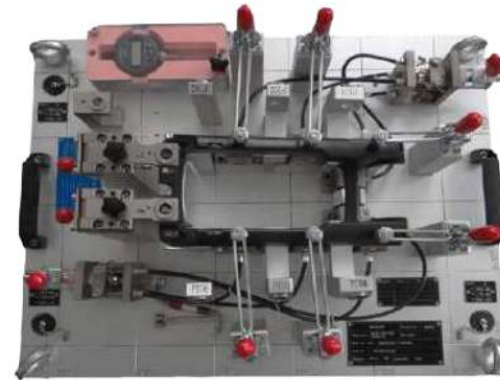

Providing “Design - Production - Assembly” integrated services
We produce both inspection fixture, calibration fixture, welding fixture and more.

Productivity: 30 to 40 units/month, about 450 units/year.

As for us, improving production technology and improving product quality are fundamental to the improvement of the company as well as provide customers with the highest quality products.
